About Carbosynth

Carbosynth is a specialist chemical company primarily working in the fields of carbohydrates, nucleosides and fine chemicals. We aim to offer a broad range of products to the international R&D communities in the following catalogues:

Enzyme Substrate and Detergent Catalogue
Monosaccharide Catalogue
Oligosaccharide Catalogue
Nucleoside Catalogue
Fine Chemical Catalogue (CD format)
Full Product Catalogue (CD format)

The catalogues have over **29,000** products and although our catalogue listings are for R&D quantities, many are produced in bulk.

We focus on the synthesis of simple and complex carbohydrate building blocks, nucleosides and some niche fine chemicals. The core technologies include the synthesis of unnatural sugars and nucleosides that are becoming of increasing interest to pharmaceutical and biotech discovery programs. We also have experience in a wide range of protection and activation strategies.

In 2013 we expanded our small scale custom synthesis and FTE capability with the establishment of new laboratories on Milton Park, near Oxford UK. At this site, our team of scientists are experienced in making complex carbohydrate and chiral targets at mgs to 100's g scale. We are committed to providing in-time development and delivery of quality compounds. If the product you require is not included in the catalogue please ask us to quote on a custom synthesis basis.

In addition we offer a range of fine chemicals, many of which are versatile building blocks or have specialist applications ranging from biochemical reagents to natural antioxidants.

How to Use this Catalogue

Products within this catalogue are listed alphabetically by systematic name. Prefixes such as bis, tris, tetra are considered to be part of the alphabetical name whereas numerical, elemental and stereochemical identifiers are not. For example 5-O-(tert-Butyldimethylsilyl)-2,3-O-isopropylidene-D-ribofuranose appears in the B's section.

Commonly used names and acronyms can also be found in the alphabetical listing and are cross-referenced to their systematic name.
For example Water Soluble Carbodiimide and its acronyms WSC, EDAC, EDC are all listed alphabetically and cross-referenced to 1-(3-Dimethylaminopropyl)-3-ethylcarbodiimide HCl.

It is also possible to find a product if you know its Chemical Abstracts Service Registry Number (CAS), its formula or its Carbosynth product code. The CAS Number Index is arranged in ascending order and cross-referenced to the alphabetical list. In some unusual cases where we feel that a product has more than one commonly used CAS, then all appear in the CAS Number Index cross-referenced to the alphabetical list. The Carbosynth Product Code Index is arranged in ascending alphanumeric order and cross-referenced to the alphabetical list.

If the product that you require is not listed in the catalogue please enquire as we may have updated our product list since the publication of the catalogue. We may also be able to offer the product you require as a custom synthesis.

On-line ordering and payment can be made by credit card at www.carbosynth.com or by ringing 44 1635 577667, or for US & Canada (858)-779-9911

In all cases, please supply the following information with your purchase order:

- Name of company or organisation
- Delivery address
- Invoice address
- Contact name and phone number
- Carbosynth product code

In the interests of Health and Safety we are unable to supply chemicals to private individuals or residential addresses.

Prices

All prices are on an EXW basis in US Dollars ($) and are subject to alteration at any time. Actual transport costs vary and depend on weight, hazard class and destination. Any transport costs and hazardous surcharges are indicated on our invoices and we endeavour to minimise these. A guide to our transport and hazard charge is given below and we will advise you if the costs are higher than those in the table, prior to delivery.

Destination	Gross Weight	Transport Charge	Hazard Charge
Europe*, USA & Canada	< 0.5 kg	$35	$75
	0.5 - 2.5 kg	$50	$75

	0.5 - 2.5 kg	$60	$90
	2.5 - 5 kg	$80	$90
Rest of World***	< 0.5 kg	$60	$90
	0.5 - 2.5 kg	$75	$90
	2.5 - 5 kg	$90	$90

* Additional costs apply to hazardous shipments to Greece, Norway, Poland, Romania and some regions in Spain
** Hazardous shipments are to the following airports only: Mumbai, Hyderabad, Bangalore and New Delhi. An additional cost of $100 applies to hazardous shipments to Hyderabad airport
*** Some restrictions apply and some additional costs apply to some territories. These will be advised on request.

Different carriers have different restrictions on the hazardous classes and territories they serve. Our preferred carrier is FedEx, although the actual carrier will depend on the hazard class and the final destination. If you wish to have products shipped by your chosen carrier please include your carrier's name and account number on your purchase order. We reserve the right to alter the method of shipment if we deem that it does not comply with regulations or that the product will not be delivered in good order.

If you wish to purchase in Pounds (£) or EURs (€) please enquire or visit our website.
